Creating a Workplace That Promotes Health, Wellness and Driving Innovation at Our HQ Cafeteria

**Introduction to the Headquarters Cafeteria of Ajinomoto Co., Inc.**

Today, we would like to introduce the headquarters cafeteria of Ajinomoto Co., Inc.

The Ajinomoto Group actively promotes health management to enhance employee well-being -the foundation of our human capital. As part of our initiative to build a workplace where “working at Ajinomoto Group contributes to building a healthier life,” the cafeteria plays a key role.

The daily menus, thoughtfully designed by registered dietitians support nutrition and health, while offering “enjoyment” and “a moment of relaxation.” The cafeteria also reduces food waste by making careful ingredients use.

The cafeteria is a place where smiles gather across depts. and positions, and natural conversations arise- a warm hub for communication and innovations.

Take a look at our headquarters cafeteria during lunchtime and see how “food” supports health management and “connections” spark innovation!
